SUMMARY

Creative and detail-focused video editor with a diverse background in music, animation, livestreams, gaming content, and personal projects. Experienced with CapCut Desktop, Adobe Premiere Pro, and DaVinci Resolve. Skilled in storytelling, crafting compelling cuts, and building animations. Transitioning from web development and automation, offering technical expertise, fast learning, and a passion for creative media.

EXPERIENCE

Puzzleverse Productions, Independent Creative Work

2010 - Present

- Edited a wide range of video projects, including livestream highlights, wildlife footage, personal vlogs, parody content, gaming edits, and animated music remakes, increasing audience engagement by 150% through compelling storytelling.
- Delivered full-cycle post-production, integrating audio, designing motion elements, and refining final outputs, reducing production time by 60% by applying advanced motion graphics techniques.
- Self-directed and managed all aspects of the creative process, balancing multiple simultaneous projects, and consistently meeting personal deadlines, while expanding technical skillset with Adobe Premiere Pro and DaVinci Resolve.

Anthology Inc. (formerly Campus Management Corp. & Hobsons), Senior Front-End Web Developer

2011 - 2025

- Designed and implemented customized branding for Connect, ensuring seamless transitions between university websites and client portals, enhancing user experience.
- Developed and maintained a custom PHP-based application for managing consultation appointments at Hobsons U Conference (2013-2019), streamlining the scheduling process and improving efficiency.
- Automated repetitive backend tasks with Greasemonkey scripts, reducing manual data entry and increasing efficiency by 60%.

CBTS, Front-End Designer (Contract)

2010 - 2011

- Managed front-end design for Hobsons, supporting UI/UX improvements and web development projects, enhancing user experience.
- Developed automation tools, increasing efficiency by streamlining repetitive backend tasks.
- Implemented customized branding for Connect, ensuring seamless transitions between university websites and client portals.

Red Bull, Student Brand Manager

2007 - 2009

- Developed websites and marketing materials, including viral campaigns for the "Can You Seek" game, increasing brand engagement by 150%.
- Planned and executed campus-wide promotional campaigns, enhancing brand visibility and engagement.
- Led social media campaigns, attracting over 1K participants for the Red Bull Soapbox Race in Cincinnati, contributing to the success of the "Red Bull Stash" nationwide promotion with 50K hidden products.

Toys"R"Us, Cashier, "R" Zone

2006 - 2008

Provided excellent customer service and assisted with sales in gaming department.
